

Objective:

Ensure that the SST students have great academic performance.

By leveraging active nudges to the students, ensuring high quality of class and assignments, and taking help from parents and guardians when required.

Course and credit structure:

[Batch'28 Curriculum](#)

Policy:

Class Quality Policy:

- Students are advised to fill in the feedback for every class done. Students can provide a rating out of 5.
- The institute shall endeavor to ensure the classes are conducted with high ratings.

Academic Performance Calculation:

At SST, we consider student CGR - Continuous Grade Rating as the true indicator of a student's academic performance.

Hence, CGR is calculated ensuring that all aspects of a student's performance is considered there which includes:

- Class participation
- Timely completion of assignments given in the class.
- Exam or Contest performance
- [Optional] Faculty specific evaluations such as viva.

More details are mentioned at [CGR and Attendance Policy](#)

CGR Policy:

CGR is the best indicator of a student's academic performance. Students should endeavor to maintain a healthy CGR. Following policies are linked to CGR:

- **L0:** Scholarships are awarded basis CGRs. Top scorers in each batch.
- **L1:** CGR of 7.5 or above required to maintain scholarship. Detailed policy at [Scholarship Policy](#)
- **L2:** CGR of 5.5 or above required to be eligible for on-campus corporate internship and innovation lab projects, as well as on-campus placement opportunities.
- **L3:** CGR of 4.5 or above required to progress to the next year. Below 4.5 CGR in the academic year would mean repeating the year.

Personality Development Credits Policy:

The Personality Development Credits (PDC) policy is designed to enhance the holistic development of students at Scaler School of Technology. By engaging in activities that foster

communication skills, leadership, and teamwork, students are better prepared to excel academically and professionally

Students must earn 8 PDC credits by choosing from the following buckets

- Communication Courses
- Leadership Roles
- Team Activities

The PDC earned will be included in the student's Continuous Grade Rating (CGR), contributing to their overall academic performance.

More details are mentioned at [PDC Policy](#)

Risk Indicator Policy (SEV):

It is important that all students do well in the program. As such, it is important to flag the students at risk of performing poorly and help them with support to get back on track.

The first step is categorizing students into severity levels. We define 4 levels of severity and categorize them as severity level 0, 1, 2 and 3 (referred as sev0, sev1, sev2, and sev3 henceforth).

Definitions:

- **SEV0:** A student is categorized into SEV0 if any of the following conditions are met:
 - CGR below **5.0** in the past **two consecutive terms**
 - OR (the overall CGR is **5.5 or below** and **3+ terms have elapsed**)
- **SEV1:** A student is categorized into SEV1 if any of the following conditions are met:
 - CGR below **5.0** in the **previous term**
 - **F grade** in **two or more subjects** in the previous term
 - **For scholarship students:** Overall CGR below 7.5
- **SEV2:** A student is categorized into SEV2 if any of the following conditions are met:
 - CGR below **6.0** in the **previous term**
 - **F grade** in **any subject** or **D grade** in **any two subjects** in the previous term
 - Missing all classes for **2 or more consecutive weeks** without prior approval (*Not applicable if student's current CGR >= 9*).
 - Overall PSP drops **below 25%** and 1+ month of classes have been completed.
 - Scored **below 10%** in mid-term in any subject
 - **For scholarship students:** Overall CGR below 8.0
- **SEV3:** A student is categorized into SEV3 if any of the following conditions are met:

- Missing all classes for **3+ consecutive days** without a known emergency / prior approval (*Not applicable if student's current CGR ≥ 9*).
- Missing **4+ consecutive classes of a particular subject** without a known emergency / prior approval (*Not applicable if student's current CGR ≥ 9*).
- Attendance in any subject drops below 65% (*Applicable post 2 weeks of classes and not applicable if student's current CGR ≥ 9*).
- PSP in any subject drops below 60% (*Only applicable post 2 weeks of classes*)

Efforts to help students at risk:

- **SEV3:**
 - An email notification sent to students on weekly basis
 - 1:1 meeting between student and allocated TA/ BSM
 - Alert to faculty and management.
 - Students are required to submit a weekly progress report on PSP improvement to their respective BSMs and the Dean Academics <kshitij@scaler.com>. Follow-ups and monitoring will be carried out by the assigned TA or BSM to ensure consistent progress toward meeting PSP targets. (Only applicable if PSP in any subject falls below 60%).
- **SEV2:**
 - All of SEV3 efforts AND
 - Alert to Dean Academics and Faculty Instructor.
 - Mandatory session with the BSMs where the student needs to present the reason for the lag, and the plan to get back on track.
 - TA driven group remedial classes to be conducted where attendance is mandatory. TAs to track weekly PSP and practice tests targets and the students will be required to achieve them and are mandated to send a weekly report of progress to the TAs, BSMs, and Dean Academics <kshitij@scaler.com>.
 - Parents to be notified via written communication (Email, Text message) and looped in to help improve academic performance.
 - **For scholarship students:** An early warning notification to be sent to students and parents for risk of losing scholarship.
- **SEV1:**
 - All of SEV2 efforts AND
 - Parents to be invited for an online meeting involving the Dean Academics and/or Faculty Members to help improve academic performance.
 - TA driven group remedial classes to be conducted where attendance is mandatory. Close monitoring to be done 1:1 By BSMs. BSMs to closely track weekly PSP and practice tests targets of each student and the students will be required to achieve them and are mandated to send a weekly report of progress to the TAs, BSMs, and Dean Academics <kshitij@scaler.com>.
 - **For scholarship students:** A final warning notification to be sent to students and parents for risk of losing scholarship (CGR < 7.5)

- **SEV0:**
 - All of SEV1 efforts AND
 - Parents **called to campus** (or invited to meet online based on availability) for a **joint meeting** with the Dean Academics to discuss **final recovery plan**

SEV Status Updation

- **SEV 3**
Attendance issues: SEV status will be checked biweekly but will remain unchanged throughout the term once triggered. If a student falls into SEV3 due to attendance 3+ times in a term, they will be escalated to SEV2.
PSP shortfall: SEV status will be refreshed biweekly once the student meets the required threshold
- **SEV 2**
SEV status to be refreshed twice every term (after mid term and end term)
- **SEV 1**
SEV status to be refreshed once every term
- **SEV0**
SEV status to be refreshed once every term
